TABLE OF CONTENTS

WELCOME

Congratulations on your purchase of the Impecca™ Compact Bamboo Bluetooth Wireless Keyboard. Now you can enjoy enhanced access to your iPad™, Android, Galaxy, and many other tablets by using a wireless keyboard featuring Bluetooth 3.0 technology.

The Compact Bamboo Bluetooth Wireless Keyboard was designed for convenience and comfort, and is sleek, stylish, and elegant. Powered by a highly efficient lithium-ion battery capable of providing up to 30 days of stand-by time, the Impecca Bluetooth Wireless Keyboard is perfect for business and daily use.

Embrace modern technology while surrounding yourself with a bamboo wood themed environment. The original Bamboo keyboard brought friendly sustainability to a domain dominated by metal and plastic. Now Impecca is taking the bamboo look to a completely new level.   Welcome to the all-new Bluetooth version for tablets and smartphones. Lean back and relax as you type away on a product that matches your sensibilities.

Before using this product, it is recommended that you familiarize yourself with the features, functions, and operating procedures described in this manual.   Due to slight modifications in production, the instructions, features, and/or descriptions found in this manual might be slightly different from your product.

PRECAUTIONS

Follow these tips and safety instructions to preserve the operational lifespan of your Bluetooth Compact Bamboo Keyboard:

- Do not use this player in extreme temperatures. Keep away from extreme hot, cold, dry, or damp areas. Also keep away from water, fire, and radiation.
- It is recommended that you allow the battery to fully charge before using the device for the first time (approximately 2 to 3 hours. Do not recharge unattended for longer than 5 hours.
- The effective range for this wireless device is up to 35 feet. Performance may be affected by distance and interference from other devices or conditions within the operating environment.
- Barriers and other wireless devices may affect the performance of headset.
- Check the laws and regulations on the use of mobile phones and hands-free equipment in areas you intend to use this product.

Warning

- Do not disassemble your Bluetooth Wireless Bamboo Keyboard.
- Do not allow young children to use your player unsupervised.
- Observe all signs and instructions that require an electrical device or radio product to be switched off in designated areas, such as petrol/refueling stations, hospitals, blasting areas, potentially explosive atmospheres or aircraft.
- Do not use or connect adaptors and/or chargers to this product that are not approved of or specified by IMPECCA™.

CHARGING THE BATTERY

The Red LED will continually flash when battery power is low. When the battery is completely drained, no indicator lights will function. Before using, allow the battery to charge for 4 to 5 hours.

1. Connect the Micro USB cable to the USB Jack on wireless keyboard.

2. Connect the larger end of the USB cable to a USB port on your PC or Laptop.

3. The Red LED will stop flashing and will remain solid red.

4. When charging has finished, the Red LED will turn off.

CONNECTING TO YOUR IPAD

1. Turn the On/Off switch (located in the upper right corner on the underside of the keyboard) to the ON position. The Status light will glow red for a few seconds.

2. On your iPad screen, tap the "**Settings**" icon to open the Settings Menu.

3. In the Settings menu panel (on the left) press the "**General**" icon. In the main panel of your iPad screen, tap the Bluetooth row.

4. Slide the Off switch to the On position (or press the Off icon once).
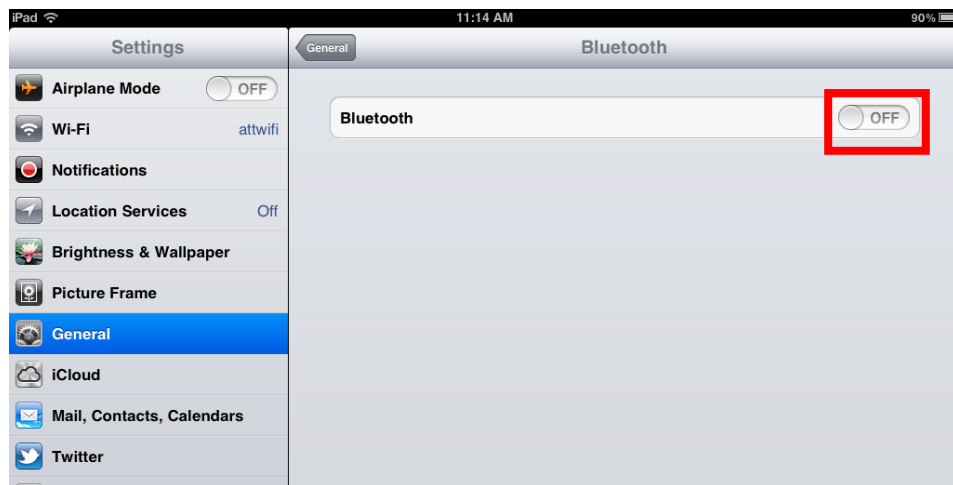

Your iPad will begin searching for any available Bluetooth Device. Be sure that the keyboard is on.

5. If your iPad is able to discover your keyboard, you will see the screen below. If you do not see this screen, press the Connect button on your keyboard (located in the upper right corner on the underside of the keyboard).

6. Tap the "Bluetooth Keyboard" row on the iPad screen to pair the device. You will be provided with a 4 digit PIN code.

7. Using your wireless keyboard, type the four digit PIN code and press the Enter / Return key. Your device should now be connected. You can now begin using your wireless keyboard.

    Note the following about the Bluetooth connection between the keyboard and your iPad:
    • If the devices are connected and you turn the keyboard off, the devices will reconnect
      when you turn the keyboard back on. Likewise, if the devices are connected and you turn your iPad
      off, the devices will reconnect when you turn the iPad back on.
    • If the devices are connected and you disable Bluetooth from the settings on your iPad, when you
      turn Bluetooth back on, you need to reconnect the devices again by following the steps above.

USING THE HOTKEYS

Your wireless keyboard is equipped with multiple hot keys for easy access to some of the applications and functions on your iPad, tablet, or smartphone.

(Esc)	**Home**	Displays the iPad home screen.
(F1)	**Brightness decrease**	Decreases the screen brightness.

(F10)	**Mute**	Mutes iPad audio.
(F11)	**Volume Decrease**	Decreases volume.
F12	**Volume Increase**	Increases volume.
del	**Lock**	Activates lock screen on the iPad.

TROUBLESHOOTING

If you experience any of the following, please refer to the steps below to resolve these issues before contacting technical support.

ISSUE	Troubleshooting Solution
Status light does not come on	Turn the On/Off switch on the keyboard to the OFF position. Turn the switch to the On position. If the status light does not flash, battery needs to be recharged. Connect the mini USB cable to the wireless keyboard player and plug into the USB port on your computer.
Unable to pair device	Make sure you have installed and set up Bluetooth correctly on your iPad. See "***Connecting to the iPad***" section of this manual. Make sure that the Keyboard is within range of your iPad. Maximum Bluetooth range is about 10 meters/33 feet. If your iPad is connected to other Bluetooth devices, you may need to disconnect some devices before you can connect to the Keyboard.
Keyboard does not respond properly or some keys do not work.	When the keyboard does not respond properly, the battery power is low. Recharge the battery fully before using.

If you experience any issues that are not listed above, or if you are unable to resolve your issue after trying the methods and solutions described above, please contact Impecca's technical support team:
