

# BENRO® Monopod Three Feet Support Stand Instructions

## **Adjust the tension of the ball (figure 1)**

Tighten and loosen the three screws at the bottom of the base to adjust the tension of the ball.

## **Interchangeable Feet (See figure 2)**

Standard removable screw-in rubber feet can be interchanged with 3-leg base to meet the needs of any shooting location. When the monopod changed to with normal rubber feet, please turn the lock knob first and then the 3-leg base by clockwise to dismount the 3-leg base, and mount the rubber feet on. When mount on the 3-leg base, please turn the lock knob by clockwise first, then turn the 3-leg base by anticlockwise, and tighten.

## **Fluid Monopod Three Feet Support Stand ( See figure 3)**

Benro Twist lock style Monopod matched with the Three Feet Support stand ensures a firm footing, it can ensure +/-15°tilting movements (The Monopod can not have tilting movement when you Lock the knob by turning it clockwise.) very easy to operation.

**NOTE:** Please don't loosen the Monopod during the process of operating.

## **Spread and Fold of the Three Feet Support Stand (see figure 4&5)**

Spread: Open the Three Feet in proper order ( see figure 4)

Fold: Press down the fixed position button, then folded the three feet ( see figure 5)

### **Operating notice**
